MBE / WBE:

This solicitation was reviewed for subcontracting opportunities in accordance with City Code Chapter 2-9C Minority Owned and Women Owned Business Enterprise Procurement Program. For the services required for this solicitation, there were no available MBE /WBE firms; therefore, no subcontracting goals were established.

Additional Backup Information

The contract will provide substation services to supplement Austin Energy personnel as required. The contractor will provide the expertise, labor, and equipment necessary to install and maintain Austin Energy substations. These services include the assembly of connection (bus) structures and hardware, installation of equipment such as circuit breakers, transformers and capacitor banks, and various other activities required to maintain and improve substations.

This contract will replace the current contract which expires on September 16, 2017 with a total spend of \$862,000 over the past five years. The contract authorization requested includes substation maintenance, funding to bring Austin Energy into compliance with new North American Electric Reliability Corporation (NERC) regulations, and contingency funding for emergencies. Additionally, Austin Energy has approximately \$400,000 in planned annual capital improvement project (CIP) upgrades.

An evaluation team with expertise in this area evaluated the offer and scored Pike Electric Inc. as the best to provide these services based on technical solution and program, cost, experience and qualifications, personnel and safety records, and local business presence.

Without Council authorization to execute this contract, Austin Energy will not be able to complete scheduled CIP upgrades and risk fines related to the new NERC requirements.

A complete solicitation package, including a response list, is on file in the City's Purchasing Office and is available on the City's Financial Services Austin Finance Online website. Link: [Solicitation Documents](#)
